

AVINASH RAVI RATHOD

Product Solution Engineer | Product Support Analyst | Application Support | Agentic Workflow Engineer

aviravi08@gmail.com | +91 93539 54733 | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Solution Engineer with 2.5+ years of experience supporting SaaS products, APIs, integrations, and enterprise applications. Proven expertise in troubleshooting complex technical issues, API debugging, SSO implementations (SAML/OAuth), workflow automation, and customer-facing technical support. Experienced in collaborating with product, engineering, and customer success teams to deliver scalable solutions, improve platform reliability, and drive successful client outcomes. Strong foundation in AI-powered workflows, REST APIs, system integrations, and production support.

PROFESSIONAL EXPERIENCE

Software Design Engineer

WinWire Technologies | Jan 2026 – Present

- Develop and support healthcare enterprise applications with focus on scalability, performance, and reliability.
- Collaborate with product managers and business stakeholders to design and implement technical solutions.
- Investigate and resolve production incidents, workflow failures, and application defects.
- Support application releases, validation testing, and post-deployment monitoring.
- Perform root cause analysis and drive resolution of critical issues.
- Work closely with engineering teams to troubleshoot complex system behaviors and improve platform performance.
- Contribute to workflow optimization and compliance-focused solution design.

Agentic Workflow Engineer

HigherEd BPO Pvt. Ltd. | Dec 2025 – Present

- Designed and implemented AI-powered workflows using Dify and Generative AI technologies.
- Built Retrieval-Augmented Generation (RAG) systems to improve knowledge retrieval accuracy.
- Integrated APIs and external services to automate business workflows.
- Developed conversational AI solutions and intelligent automation use cases.
- Collaborated with stakeholders to translate business requirements into scalable technical solutions.

Product Solution Engineer

HigherEd BPO Pvt. Ltd. (Client: Ready Education – CampusGroups)

Dec 2023 – Nov 2025

- Delivered end-to-end technical support for enterprise SaaS platforms serving universities and educational institutions.
- Troubleshot REST API integrations, SSO implementations (SAML/OAuth), authentication issues, and third-party integrations.
- Worked directly with customers to understand requirements, diagnose issues, and provide technical solutions.
- Conducted root cause analysis (RCA) and implemented preventive measures to reduce recurring incidents.
- Managed production issues, escalations, deployment support, and platform upgrades.
- Utilized SQL, logs, monitoring tools, and Postman for debugging and issue resolution.
- Partnered with Product, Engineering, and Customer Success teams to improve customer experience and platform stability.
- Created technical documentation, SOPs, and knowledge base articles.
- Implemented AI-powered chatbot solutions that reduced support ticket volume and improved response times.
